

# **UCLA Advisory Board on Privacy and Data Protection**

3:30-5PM Monday, December 18, 2006

2325 Murphy Hall

## **Agenda**

1. *UCLA breach*

In light of the personal information breach and notification that has taken place this week, I would like to devote the meeting to discussing the security breach, the notification process and several actions underway. There are reactions by different communities that are now emerging that should also be discussed. The UCLA situation has already sparked a renewed push on legislation out of Senator Feinstein's office.

2. *e-Discovery*
